Research Papers

A non-linear rainfall-runoff model using radial basis function network
G.-F. Lin and L.-H. Chen . . . 1
On the ability of AirSAR to measure patterns of dielectric constant at the hillslope scale
A. W. Western, R. B. Grayson, T. Sadek and H. Turral . . . 9
Characterizing unsaturated solute transport by simultaneous use of dye and bromide
P. Öhrström, Y. Hamed, M. Persson and R. Berndtsson . . . 23
Use of chemical and isotopic tracers to assess nitrate contamination and ground-water age, Woodville Karst Plain, USA
B. G. Katz, A. R. Chelette and T. R. Pratt . . . 36
Evaluating the use of canal seepage and solute concentration observations for aquifer parameter estimation
E. Zechner and W. J. Frielingsdorf . . . 62
Borehole cylindrical noise during hole–surface and hole–hole resistivity measurements
J. L. Osiensky, R. Nimmer and A. M. Binley . . . 78
A frequency domain approach to groundwater recharge estimation in karst
D. Jukić and V. Denić-Jukić . . . 95
Analytical methods for estimating saturated hydraulic conductivity in a tile-drained field
D. E. Rupp, J. M. Owens, K. L. Warren and J. S. Selker . . . 111
Trend analysis of streamflow in Turkey
E. Kahya and S. Kalaycı . . . 128
Spatial variability of evaporation and moisture storage in the swamps of the upper Nile studied by remote sensing techniques
Y. A. Mohamed, W. G. M. Bastiaanssen and H. H. G. Savenije . . . 145
Oxygen-18 variations of rainwater during precipitation: application of the Rayleigh model to selected rainfalls in Southern France
H. Celle-Jeanton, R. Gonfiantini, Y. Travi and B. Sol . . . 165
A pipe-based, first approach to modeling closed conduit flow in caves
G. S. Springer . . . 178
Streamflow, sediment and carbon transport from a Himalayan watershed
P. Sharma and S. C. Rai . . . 190
Evaluating the impact of the recent temperature increase on the hydrology of the Têt River (Southern France)
W. Ludwig, P. Serrat, L. Cesmat and J. Garcia-Esteves . . . 204
Assessment of the pesticide leaching risk at the Pan-European level. The EuroPEARL approach
A. Tiktak, D. S. de Nie, J. D. Piñeros Garcet, A. Jones and M. Vanclooster . . . 222
Dual-permeability modeling of preferential bromide leaching from a tile-drained glacial till agricultural field
H. H. Gerke and J. M. Köhne . . . 239
Soil water depletion and recharge patterns in mixed and pure forest stands of European beech and Norway spruce
H. Schume, G. Jost and H. Hager . . . 258
Characterization of organic matter in rainfall, throughfall, stemflow, and streamwater from three subtropical forest ecosystems
M. C. Wang, C. P. Liu and B. H. Sheu . . . 275
Generation of daily amounts of precipitation from standard climatic data: a case study for Argentina
F. Castellví, I. Mormeneo and P. J. Perez . . . 286

Discussions

Comment on 'Investigating ponding depth and soil detachability for a mechanistic erosion model using a simple experiment' by Gao, B., et al., 2003. Journal of Hydrology 277, 116–124
P. I. A. Kinnell . . . 303
Reply to comment on 'Investigating ponding depth and soil detachability for a mechanistic erosion model using a simple experiment' by Gao, B., et al., 2003. Journal of Hydrology 277, 116–124
C. W. Rose, B. Gao, M. T. Walter, T. S. Steenhuis, J.-Y. Parlange, K. Nakano and W. L. Hogarth . . . 307
